INTRODUCTION

Department of Training and Technical Education (DTTE) have been playing a key role towards planned economic growth from the time of its inception. On the one hand it has been empowering youth by providing them appropriate knowledge and employable skills so that they may get gainful employment and on the other hand it has been providing trained technical-skilled manpower to meet the contemporary needs of the world of work. The dynamic changing working scenario needs competent skilled human resources who may adapt themselves in the varying working circumstances. To meet this challenge, the Department is striving hard. It aims to mould and provide the trained and talented professional and technical manpower that may be adaptable not only in India but also all over the world. For this purpose, 17 full time diploma programs in Engineering/Non-Engineering disciplines are being offered at 8 AICTE approved Technical Institutes (01 Government-Aided and 07 Privately Managed), affiliated with the Board of Technical Education (BTE), Delhi.

The alumni of these institutes are very well placed in various reputed organizations including government sector as well as Public sector organizations and MNCs. It has been observed that the diploma students are picked up during campus placement drives for appointment at various levels. However, diploma holders in relevant disciplines may also enrolled themselves for higher studies as there is provision for vertical mobility in some of the courses for lateral entry in second year/ third semester of under graduate programs like B.Tech, B. Pharma etc.

The DTTE plans to admit students to first semester/first year for various Full-time Diploma Programs (Engineering and Non-Engineering) for the academic session 2026-27. The Controller, Board of Technical Education along with his team, on behalf of Delhi Knowledge Development Foundation, under DTTE will be taking care of admission to various diploma courses for the session 2026-27 for which applications are being invited through this Information Bulletin. Candidates will be eligible for admission to diploma courses in various Institutes functioning under the administrative control of Department of Training and Technology subject to declared qualified on the basis of the Common Entrance Test.

Admission for the Session 2026-27 is also available for lateral entry of 10+2 (PCM/B) qualified candidates from schools located in Delhi or candidates who have qualified 10th class and successfully completed two years course from Industrial Training Institutions (ITIs) located in Delhi. These students will be eligible for admission to Second Year/Third Semester of Full-Time Diploma Engineering courses in any discipline against 10% supernumerary seats earmarked for them subject to regulations or guidelines issued by the AICTE or the Government of NCT of Delhi. However, ITI pass-outs of trades for which the entry level qualification for admission to ITI is VIII pass or the duration of ITI trade is less than TWO years shall not be considered for lateral entry.

BOARD OF TECHNICAL EDUCATION (BTE), DELHI

1. Aims and Objectives Of The Organizations

- Design and develop curricula according to requirement of Industry/Organization.
- Revise the curricula of the existing programs periodically as per requirement of Industry/Organization.
- To grant affiliation to the institutions as approved by AICTE for Diploma level and the closure of Institution/course.

2. Mission

To ensure that the Diploma Level Technical Education constantly matches the latest requirements of Technology, Industry and Organization, including the all-round personal development of students, and to become globally competitive, technology led organization.

3. Vision

To upgrade the Technical Education by focusing on the resources relevant to latest Technologies, and connecting all sections of the societies.

Board of Technical Education (BTE), Delhi was established in 1961 as an affiliating authority for Diploma Level Education. BTE grants affiliation to run the diploma courses as per AICTE recommendations to the Govt. aided & privately managed technical & professional institutes in Delhi. At present there are 01 Govt. aided institute and 07 privately managed institutes duly approved by AICTE that are affiliated to BTE. On the basis of successful completion of diploma examinations, certificates are issued twice a year.

4. ABOUT THE DIPLOMA PROGRAMMES

APPLIED ART (Offered at AID)

The three year diploma in Applied Art focuses on development of creative ability and understanding of human psychology in different media and professional skills through study of subjects like Basic Design, Lettering & Typography, Press Layout, Poster Design, Illustration, Computer Graphics, Elementary Knowledge of Photography, Sketching, Study of Life/Nature and objects. Diploma holders from this department can choose to work as Graphic Designer in government organizations, advertising agencies, design studio, publishing houses, TV channels, Art and craft teacher and can also work as freelance artist.

ART FOR DRAWING TEACHERS (Offered at SU)

After obtaining three years Diploma in Art for Drawing Teachers, the candidates may have job opportunities as Art/Drawing Teachers in the Senior Secondary Schools, Government of Delhi, MCD, NDMC and Public Schools as well as Artist in the Govt. Department and Advertising Agencies.

AUTOMOBILE ENGINEERING (Offered at CR)

Automobile Engineering, being an advanced and emerging area of technology, has shown an unprecedented growth due to the increasing demand of automotive vehicles. A conscious attempt has been made to design the Three Year Diploma course as per the requirement of the industry. Specific subjects on Automobiles are being taught besides basic sciences and allied subjects. Eight weeks' industrial training for the students has been made an integral part of the curriculum whereby students can correlate their theoretical knowledge to the practical approach of problem solving. The Departments of Automobile Engineering have well-equipped laboratories and workshops. CIVIL ENGINEERING (Offered at CR) Curriculum for Civil Engineering has been designed for catering to the current as well

CIVIL ENGINEERING (Offered at CR)

Curriculum for Civil Engineering has been designed for catering to the current as well as future needs of the Civil Engineering applications, such as Surveying, Concrete Technology, Soil Mechanics, Transport Engineering, Public Health and Environment Engineering, Computer Aided Design and Valuation with a view to generate the required competency profile of the diploma holders after the completion of the Diploma.

COMPUTER ENGINEERING (Offered at AI, CR)

Computer Engineering, an advanced and emerging area of technology has shown an unprecedented growth in every sphere of activity. A conscious attempt has been made to design the curriculum as per the requirement and need of the industry. Elective subjects like Object Oriented Programming (OOP), Data Base Management System (DBMS), Multi Media, etc. are being taught besides basic sciences and allied subjects. Industrial training and project have been made an integral part of the curriculum to enable the students to correlate their theoretical knowledge with the practical approach of problem solving. With equal importance given to hardware and software subject, most of the institutes maintain well-equipped and modernized DBMS Lab, Multi Media and Networking Lab with Internet facility, software lab, CAD lab and Hardware lab. After successful completion of the course, students can secure jobs as Software Engineer, Network Engineer, Programmer, Hardware Engineer, Maintenance Engineer, System Analyst etc.

ELECTRICAL ENGINEERING (Offered at CR)

This course has been designed to provide practical and theoretical knowledge of conventional and emerging areas of electrical engineering with emphasis on electronics and software engineering. Most of the institutes have well-established laboratories that include electrical machine lab, electronics, electrical workshop, instrumentation and measurement lab, computer lab etc. After completion of the course, students are able to work in the areas like production of machines, installation, maintenance and servicing of electrical systems. The students are employed in areas that include Electrical power generation, transmission, Railways, Installation & Commissioning of power equipment, SCADA (Supervisory Control and Data Acquisition) etc. The students are equally placed in Computer hardware and Electronics sectors.

ELECTRONICS & COMMUNICATION ENGINEERING (Offered at AI, CR)

Electronics and Communication is now a part of our everyday life, from our pocket FM radio to televisions, computers, mobile phones and even high-end satellites that are helping us in every path. This course has been designed to provide in-depth knowledge of theory & practical in the emerging & latest areas of electronics that include communication system, advanced communication, microprocessor, telecommunication, mobile communication, internet technologies etc. This course aims at making the students capable of testing & using different electronic devices, fabricating & maintaining professional and medical instruments, making and interpreting technical drawings, maintaining communication systems, understanding industrial processes and communicating effectively. After the completion of the course, students become eligible to get jobs in Electronics, Communication & Computer industries as technicians, supervisors, production engineers, sales & service Engineers etc. The Diploma holders can become successful entrepreneurs in the field of repair and maintenance of electronic items.

FASHION DESIGN (Offered at IN, AID)

The Diploma in Fashion Design helps students to develop the technical expertise and theoretical knowledge about fashion and apparel design industries. The Diploma in Fashion Design offers intensive training in fashion design processes including basics of textile, concept of design, fashion illustration, design development pattern development, draping, grading, marker planning, computer aided designing, garment construction, production management, quality control, project preparation and presentation, fashion retailing, apparel merchandising etc. The students shall undergo the industrial training in various activities of fashion designing and processes of apparel manufacturing. After completion of the diploma, students are able to work in the different position in the fashion industry such as fashion coordinator, fashion illustrator, fashion merchandiser, fashion forecaster, costume designer etc.

INFORMATION TECHNOLOGY ENABLED SERVICES & MANAGEMENT (Offered at AI)

Diploma in ITES & M has been designed to meet the growing need of KPOs, BPOs and other organizations providing IT Enabled Services. Course Content has been designed to fill the vacuum between academics, Computers and IT Enabled Service Sector. Department develops professional competency in students by combining theory with exhaustive practical training. Communication Skills have been given due importance. Elective subjects like IT Laws and Patents, Cyber Crimes, Computer Graphics and Multimedia are being taught besides basic science and core subjects. Department maintains well equipped and modern labs like DBMS, Computer Networking, Multimedia, Software Lab, Web Site Designing Lab, Hardware Lab, English Language Lab. After successful completion of the programme, students can secure jobs at various levels like Programmer, Web Designer, Network Administrator, System Administrator and Database Administrator in KPOs, BPOs and other industries providing IT Enabled Services.

INTERIOR DESIGN (Offered at AID)

Interior Design is an advanced and emerging area with a high employment potential because of an unprecedented consciousness and an urge for good living in the modern society with the availability and awareness of new materials and technologies in the field of interior design.

A conscious effort has been made to design this three-year diploma course as per needs of the industry. The course content includes CAD training on computers using the latest software, workshop practice in carpentry, fitting, welding, painting and polishing. Six weeks industrial training is an integral part of the course. To enhance the entrepreneurial skills and generate self-employment specific subjects like Entrepreneurship and Elements of Business Management are being taught apart from basic subjects related to the field of Interior Design. Thus, the students are also prepared for self-employment.

MECHANICAL ENGINEERING (Offered at CR)

The Mechanical Engineering department has well equipped labs conforming to the norms and standards laid down by the AICTE. These include thermal engineering lab, strength of materials lab, Fluid mechanics and machines lab, Materials and Metallurgy lab, CAD lab etc. The departments comprise of various categories of Mechanical workshops that includes Welding, foundry, fitting, carpentry, painting, sheet metal and machine shops which are equipped with some of the latest & most sophisticated machines & tools like CNC machine, all geared central lathe, HMT lathe machine, Sigma milling machine, tool grinder etc. Industrial Training has been made an integral part of the curriculum.

MEDICAL LABORATORY TECHNOLOGY (Offered at AI, BH)

Diploma programme in Medical Laboratory Technology primarily aims at imparting training to enable the students to conduct various examinations on body fluids/ tissues and prepare reports. They are also taught to use, manage different laboratories and maintain equipment used in the clinical labs of the hospitals, to communicate effectively with doctors, patients and representatives of business organizations. A diploma holder can be appointed as a laboratory technician in laboratories of various departments in medical colleges, hospitals and private laboratories. They can also join pharmaceutical concerns.

PHARMACY (Offered at BH, SB and DIRD)

Diploma course in Pharmacy imparts knowledge of manufacturing, synthesis, mode of action, uses and toxic effects of medicine. It deals with the study of medicinally important drugs from natural sources. A practical training of 500 hours in different hospitals and dispensaries is given to students after completion of two years course. Then they are registered as Pharmacist. The trained diploma holders are absorbed in pharmaceutical companies as marketing personnel or as pharmacists in hospitals, dispensaries, health centers and different pharmaceutical organizations.

TEXTILE DESIGN (Offered at IN)

This course enables the students to explore drawing, color imagery, and surface pattern through a wide range of print processes. Creative solutions are designed for a diverse range of fashion and interior applications. The course has a business-oriented focus with emphasis on retail management in the final year of study. Modules in buying, marketing and visual merchandising developed research, written and oral presentation skills. CAD is an integral part of the course. Workshops are equipped with traditional looms to explore design a concept using weave and knits. The students can pursue careers as house designer's stylists, free-lance designers, visual merchandisers and retail managers in the textile mills, in design studios with fashion designers. They can work independently as entrepreneurs.

IC MANUFACTURING (offered at CR)

The institute started this new course titled “IC MANUFACTURING” from the last academic year 2023-24 as per the guidelines of AICTE. Keeping in view the latest industry trends, the market requirement and Government initiative to launch manufacturing industries in semiconductor areas, this course is the need of the hour to meet the demands of the industry. During the development of curriculum of diploma course in IC Manufacturing, the employability and employment for diploma holders, graduates, future ready Work force, who will be skilled enough to handle the rapid growth in the field of semiconductor chip, VLSI design and technology, were kept in mind. In future perspective this course will be very demanding by the manufacturing industries which are starting to establish in India .Till today almost all ICs (chips) were imported by other companies but now Indian government has taken initiative to establish these manufacturing industries.

5. ELIGIBILITY CONDITIONS FOR ADMISSION TO DIPLOMA PROGRAMME 2026-27

<p>For Candidates applying for Engineering and Non – Engineering Diploma Courses</p> <p>TEST 1 For candidates applying for Diploma Courses in Applied Art, Art for Drawing Teachers, Automobile Engineering, IC Manufacturing, Civil Engineering, Computer Engineering, Electrical Engineering, Electronics & Communication Engineering, Fashion Design, Information Technology Enabled Services & Management (ITES&M), Mechanical Engineering, Medical Laboratory Technology, Interior Design, Textile Design.</p>	<p>MINIMUM ELIGIBILITY FOR ADMISSION *</p> <p>The candidate should have passed 10th class of 10+2 System or Metric or any other examination recognized as equivalent to 10th class examination, conducted by CBSE / Equivalent Board with subjects Science, Mathematics & English .</p>
